

UNITED STATES DEPARTMENT OF AGRICULTURE

SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

APRIL 1939

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year (foreign, 60 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

LICENSES ISSUED FOR BIOLOGICAL PRODUCTS, MARCH 1939

License No. 4 was issued March 14, 1939, to The Abbott Laboratories, Inc., Fourteenth Street and Sheridan Road, North Chicago, Ill., for western-type-encephalomyelitis vaccine (chick).

License No. 17 was issued March 3, 1939, to Beebe Laboratories, Inc., Larpenteur Avenue and Winthrop Street, St. Paul, Minn. (mailing address, P. O. box 3575), for: Abortion vaccine (bovine); anti-swine-erysipelas serum; avian tuberculin; blackleg aggrassin (cultural); blackleg bacterin; blackleg vaccine; calf-scour bacterin (mixed); equine-influenza bacterin (mixed); fowl-cholera-typhoid bacterin; fowl-pox vaccine; hemorrhagic-septicemia aggrassin; hemorrhagic-septicemia bacterin; hemorrhagic-septicemia bacterin (for fowls); keratitis mixed bacterin (for cattle); mastitis bacterin mixed (for cattle); mixed bacterin (avian); mixed bacterin (for cattle); mixed bacterin (for sheep); mixed bacterin (for swine); navel-ill bacterin mixed (for colts); polyvalent bacterin mixed (canine); polyvalent bacterin mixed (equine); pulmonary mixed bacterin (for cattle); pulmonary mixed bacterin (for sheep); pulmonary mixed bacterin (for swine); rabies vaccine; and western-type-encephalomyelitis vaccine (chick).

LICENSES TERMINATED, MARCH 1939

License No. 17, issued August 5, 1938, to Beebe Laboratories, Inc., Larpenteur Avenue and Winthrop Street, St. Paul, Minn., was terminated February 21, 1939, because of the discontinuance of production of equine-encephalomyelitis vaccine.

Licenses No. 17, issued October 15, 1935, February 4, May 15, and October 6, 1936, and January 27, 1938, to Beebe Laboratories, Inc., Larpenteur Avenue and

Winthrop Street, St. Paul, Minn., were terminated March 3, 1939, because of the discontinuance of production of: Abortion mixed bacterin (equine); blackleg aggressin (natural); infectious laryngotracheitis vaccine; mixed bacterin (for rabbits); and tuberculin.

PERMIT ISSUED FOR BIOLOGICAL PRODUCT, MARCH 1939

Permit No. 12 was issued March 10, 1939, to Dr. William J. Glasgow, 27 Sanford Street, Springfield, Mass., for the importation during 1939 of canine anti-distemper serum, manufactured by Laboratoire de Sérothérapie Veterinaire, 3 Impasse Adam, Boulogne, Sur-Seine, France.

PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket No. 450.—*In re Denver Union Stockyards Co.*, Denver, Colo. Pursuant to the provisions of the Packers and Stockyards Act, the Secretary of Agriculture issued an order in the above-entitled case on February 17, 1937, prescribing reasonable rates and charges to be observed by respondent for the rendition of services at its stockyard at Denver. On June 1, 1938, respondent filed a tariff in compliance with said order. On July 25, 1938, said order was modified to allow respondent to charge for yardage 8 cents per head on direct shipments of hogs to packers received at petitioner's stockyard other than by rail. The order of the Secretary also prescribed charges for dipping livestock. On April 3, 1939, respondent filed a petition seeking further modification of the order of February 17, 1937, requesting that it be allowed to make an increase in the charges for dipping, as the charges prescribed in the Secretary's order were not sufficient to cover the cost of such service and the use of the facilities required for furnishing such service. Therefore, on April 15, 1939, the Secretary modified his order of February 17, 1937, to become effective May 1, 1939, providing for rates and charges for dipping not in excess of the following:

Bulls, 70 cents per head, minimum \$15 per lot.

Other adult cattle, 35 cents per head, minimum \$15 per lot.

Calves, 25 cents per head, minimum \$15 per lot.

Docket No. 1154.—*In re West 21st Street Poultry Market, Inc.*, Brooklyn, N. Y. The Acting Secretary of Agriculture on August 2, 1938, issued an inquiry and notice of hearing alleging that respondent had violated title V of the Packers and Stockyards Act. On January 22, 1937, respondent applied for a license to buy, sell, and handle live poultry in interstate commerce, but its application was denied on July 10, 1937, for the reason that its financial position was insufficient to insure the prompt payment of its recurring weekly obligations in its purchases of poultry. Subsequent to the order of denial respondent submitted a bond in the amount of \$1,000 and waivers from the officers of the company as to the amounts owed them by the corporation. As it appeared that respondent had met the requirements of the Secretary for the issuance of a license, another order was issued on No-

ember 20, revoking the order of July 10 and granting respondent a license. The above-mentioned bond was canceled by the surety company on March 15, 1939, following which an accountant of the Government made an audit of the books and records of respondent, from which it appeared that respondent did not, in good faith, obtain waivers from the officers of the company, nor did it comply with the terms thereof, and, therefore, had violated the provisions of title V of the act. A hearing was held on August 16, 1938, and from the evidence adduced at that time it appears that respondent had violated the provisions of title V of the act and that said violations have been flagrant and repeated and warrant revocation of respondent's license. Therefore, on April 18, 1939, the Acting Secretary issued an order revoking respondent's license to buy, sell, and handle live poultry in commerce.

Docket No. 1170.—In re Schweizer Commission Co., Chicago, Ill., vs. Quality Poultry & Egg Market, Chicago, Ill. The Schweizer Commission Co. on September 12, 1938, filed an informal complaint seeking reparation under the Packers and Stockyards Act in the amount of \$76.05 against the Quality Poultry & Egg Market. A copy of the complaint was served on defendant who acknowledged service of same on October 3, but neither admitted nor denied the allegations in the complaint. A hearing was held on November 18 and the defendant admitted the debt and paid to the complainant \$6 on account. The complainant and the defendant stipulated that no further action should be taken by the Secretary for approximately 23 weeks in order to give the defendant an opportunity to pay off the indebtedness at the rate of \$3 per week. The defendant has failed to comply with its stipulation in any respect, therefore, the agreement has been disregarded and further action taken on the record. A copy of the examiner's report was served on defendant on March 14, 1939, but no exceptions were filed, neither was oral argument requested. The Assistant Secretary on April 22 ordered the Quality Poultry & Egg Market to pay to the Schweizer Commission Co. as reparation the amount of \$70.05, with interest at the rate of 6 percent per annum.

Docket No. 1174.—In re Sachs Brothers, Chicago, Ill. The Secretary of Agriculture issued an inquiry and notice of hearing on December 23, 1938, alleging that respondents had violated title III of the Packers and Stockyards Act in that they had engaged in and used an unfair, unjustly discriminatory, and deceptive practice and device in connection with the handling, weighing, sale, and shipment of livestock in commerce by the use of false and fraudulent scale tickets. On January 5, 1939, a hearing was held. From the evidence adduced at said hearing it appears that respondent appropriated blank scale tickets, which they found in scale houses of the official weighmaster of the stockyards company, and placed information on these tickets regarding the number of head and weight of livestock for the purpose of making it appear that the tickets represented genuine and validly issued tickets made by the weighmaster. In order to give the false tickets an air of genuineness it seems that respondents purchased a typewriter and used it to type figures representing the false weights on the tickets, as the genuine tickets bear type impressions of the weights placed on the tickets. Respondents used these counterfeited scale tickets in connection with the sale of livestock to a packer through an order-buying concern at the Chicago market. A representative of the order-buying concern testified that these tickets were relied on in making up invoices in connection with the billing of the packer for payment of the livestock. The examiner submitted his tentative findings of fact, to which respondents filed exceptions and an oral argument was had before the Assistant Secretary on March 9. Upon the basis of the entire record, the Assistant Secretary found that the execution and use of these false tickets were deceptive and were beneficial to the respondents in that they were enabled to escape a payment of 17½ cents per animal reweigh charge which they would have paid the stockyard company had the animals actually been weighed over the scales. Therefore, on April 22 respondents were ordered to cease and desist from engaging in the unfair and deceptive practice and device mentioned above, and were suspended from registration as a dealer for a period of 1 year.

Docket No. 1181.—In re Great Western Livestock Commission Co., Los Angeles, Calif. The Acting Secretary of Agriculture on January 7, 1939, issued an inquiry and notice alleging that respondent had violated the Packers and Stockyards Act in that it had engaged in and used certain unfair, unjustly discriminatory, and deceptive practices and devices in connection with the handling of livestock in commerce, that it had failed to properly handle funds due to shippers for their livestock, that it had failed to keep such books, records, and memoranda as would fully and correctly disclose all the transactions involved in its business, and that it was insolvent in that it was unable to pay its obligations as they became due in

the usual course of business. A hearing was held on January 19. The examiner submitted a report. Counsel for the respondent filed a brief and exceptions to the examiner's report and waived an oral argument. No exceptions were filed by the Government counsel. On April 10 respondent was ordered to cease and desist from the unfair, unjustly discriminatory, and deceptive practices and devices of authorizing an agent to buy livestock and draw drafts upon the respondent in favor of the sellers of such livestock for the purchase prices thereof and thereafter refusing to pay the amounts due to the respective sellers of livestock; of permitting owners of livestock to draw upon the respondent for funds in advance of the actual receipt by the respondent of the proceeds arising from the sale of their respective livestock, unless such advances are paid from the general account of the respondent and not from the shippers' proceeds account; of using shippers' proceeds for the purpose of financing its own business; of commingling other moneys with funds arising from the handling of livestock on behalf of others; of failing to pay promptly to the owners of livestock the net proceeds arising from the sale thereof; and of failing to keep such records as fully and correctly disclose all the transactions involved in its business. It was also ordered that the registration of respondent as market agency be suspended for a period of 6 months.

Docket No. 1194.—In re Bergen Beach Live Poultry Market, Brooklyn, N. Y. The Acting Secretary of Agriculture on February 11, 1939, issued an inquiry and notice of hearing alleging that respondent was insolvent in that it was financially unable to fulfill the obligations that it would incur as a licensee. On March 29 respondent acknowledged service of the inquiry and notice, admitted the truth of the matters and things alleged, and waived a hearing thereon. On April 26 the Acting Secretary issued an order revoking respondent's license, to become effective 15 days from that date.

STOCKYARD WITHDRAWN FROM JURISDICTION

The Consignors Auction, Fort Morgan, Colo, was withdrawn from the jurisdiction of the Secretary of Agriculture under the Packers and Stockyards Act on April 10, 1939.

CHECKS COVERING SALARY OR REIMBURSEMENT ACCOUNTS

Budget and Finance Circular No. 113, dated April 8, 1939, regarding delivery and/or endorsement of checks drawn on the Treasurer of the United States in payment of salaries to employees, has recently been distributed to officials in charge, both in Washington and the field. It is of particular interest to all administrative officials to whom salary checks are sent for delivery to employees under their supervision. In all instances a check must be delivered to the employee either in person or by mailing it to his home address. Delivery may also be made in accordance with the written instructions of the employee if merely for his convenience and not in the nature of an assignment "for value received."

Officials in charge of stations should notify the Bureau promptly of every instance of a request for the delivery of a salary check or a check in payment of a reimbursement account when the request is in the nature of an assignment "for value received." Endorsement of a Government check must be by the employee to whose order it is drawn except pursuant to a duly executed "Power of Attorney By Individual For The Collection Of Checks Drawn On The Treasurer Of The United States" (Treasury Form 6569), a copy of which must be on file in the Treasury Department.

REPORTING LOST PROPERTY

Paragraph 7 of Circular Letter No. 2158, dated March 1, 1939, provides that accountable officers shall report all cases of lost property on Form AD-112. In submitting this form, accountable officers should not include remittance for badges, brands, etc., as has been done in the past when submitting Form P-3, but should await a billing from the Washington office.

It is expected that with the exception of badges, all reimbursements which are called for will be in the same amount as the value shown on the property record card (Form AD-106). The charge of \$2 each for badges will continue.

NEED TO CONSERVE SUPPLY OF 1938 REPORT OF THE CHIEF OF BUREAU

Because of a large demand for copies of the Report of the Chief of the Bureau of Animal Industry for the fiscal year 1938, the supply for general distribution is now exhausted and only a limited number of file copies are in stock. Inspectors in charge and others are requested to conserve office supplies of this report so far as possible. Since the edition is limited by law, there is no opportunity for reprinting. Field offices which have more copies than are needed are requested to forward them to the Washington office.

SOUND FILM ON FOOT-AND-MOUTH DISEASE AVAILABLE

In its endeavor to forestall any future invasion of foot-and-mouth disease in the United States, the Bureau, in cooperation with the Extension Service, has prepared a sound picture on the subject.

Although the photography is necessarily historical in character, the narration is up-to-date, giving the latest information available on foot-and-mouth disease and measures for its prevention and eradication under conditions in the United States. The essential purpose of the presentation, entitled "Suppressing Foot-and-Mouth Disease," is to provide an impressive pictorial record of the characteristics of the malady so that veterinarians and stockmen may recognize it promptly in case infection should ever appear in this country. The picture illustrates methods of eradication, portrayed by typical scenes involving the detection of infected animals and their slaughter and burial. Other scenes deal with maintenance of quarantines and with cleaning and disinfecting operations.

The entire presentation has been condensed into one 10-minute reel. Reservations may be made by addressing the Motion Picture Section, Extension Service, United States Department of Agriculture, Washington, D. C.
